

What's New 'Cliff Notes'

IBX SmartView 2021.3

IBX SmartView 2021.3 release delivers a set of new features enhancing the IBX SmartView capabilities.

Privacy Statement for users directly accessing IBX SmartView

In this release, all Equinix Customer Portal (ECP) users who have not provided consent to our Privacy Statement, obtain a request to provide the necessary consent at the time of logging into the IBX SmartView portal. The request for consent to privacy is followed by a PING adapter before successful login. This consent is inherited from the user's privacy settings in ECP, and appears only once unless consent is reverted.
