

## What's New 'Cliff Notes'

### Colocation 2020.1

Colocation 2020.1 release delivers a set of new features that enhances the capabilities of Space and Power.

Data Hall is introduced to enable large footprint colocation deployments inside a dedicated customer white space within the xScale data center. Each Data Hall offers the following benefits:

- Supports more than 250 cabinets
- Provides dedicated infrastructure to deliver UPS backed power
- Scales in multi-megawatt increments
- Operates at either ASHRAE Recommended or Allowable environmental ranges
