

## What's New 'Cliff Notes'

### Equinix Precision Time 2021.1

Equinix Precision Time 2021.1 enables you to change your service configurations through the expanded Edit Services capability in the Precision Time Portal.

#### Edit Configuration Using Precision Time Portal

With this release, you can use the Precision Time Portal to make configuration changes to Equinix Precision Time service instances running on either NTP or PTP protocols. The enhanced Edit Services feature enables you to update configuration details such as the metro, port, and IP addresses of your primary and secondary time masters. In addition, if you ordered a service instance from the Precision Time Portal, you can change the service tier and review pricing adjustments.
