

What's New 'Cliff Notes'

Equinix Fabric 2020.4

Equinix Fabric 2020.4 delivers a set of new features enhancing the Equinix Fabric capabilities.

ECX Fabric is now Equinix Fabric

We're changing the name from **Equinix Cloud Exchange Fabric** to **Equinix Fabric**. No action is required on your part. You will start to see the new name used in Equinix portals, websites, and product documentation.

Edge Metal

You can now connect to Equinix Metal servers via Equinix Fabric. For information about Equinix Metal, see the [Equinix Metal](#) documentation.

Equinix Fabric Customer Connect to a Non-Equinix Fabric Customer

Equinix Fabric customers can now connect to Non-Equinix Fabric customers, increasing the number of destinations that can be reached.

Cross Customer Organization Permissions

Master Admins will have the ability to share a user from their customer organization with another customer organization under the same Global Parent. The shared user can order or manage assets for multiple customer organizations using a single login.
