

What's New 'Cliff Notes'

Equinix Fabric 2021.4

Equinix Fabric 2021.4 includes an update of the Equinix Fabric Dashboard, the addition of the **Service Token Inventory**, and a new feature in the **Connections Inventory** that allows you to download a spreadsheet containing your entire inventory.

Equinix Fabric 2021.4 is available November 8, 2021.

Equinix Fabric Dashboard

The Equinix Fabric Dashboard now features a map of your port locations and all metros where Fabric ports are available. You can choose to view utilization and availability status for your **Top Utilized Ports** or **All Ports**. While the Dashboard has a new look, all of the capabilities introduced in 2021.3 are still available.

For more detailed information about the Dashboard, access the What's New 'Deep Dives' [here](#).

Service Token Inventory

The new **Service Token Inventory** allows you to view, edit, and delete service tokens.

For more detailed information about the Service Token Inventory, access the What's New 'Deep Dives' [here](#).

Connections Inventory

You can now export your **Connections Inventory** to a spreadsheet. While viewing your Connections page, click **Export .csv file** to download the spreadsheet.

Support Case History

Support Case History provides a single location to view and track the status of all of your support tickets created after November 6, 2021. All of your open cases are listed. Click on a case to view the case details, add comments and details to the case, or even cancel a case if it is no longer needed. Click **Support** and select **Support Case History** to access your support case history.
