

What's New 'Cliff Notes'

Internet Exchange 2020.2.1

Equinix Internet Exchange 2020.2.1 delivers a new feature that enhances Internet Exchange capabilities.

Remote Port Eligibility Rules

This feature enhances Link Aggregation Groups (LAG) and redundant port capabilities, and enables you to include remote IX Ports in a LAG.

Remote IX ports that enter the IBX through a third party can now be a part of LAG. They can be grouped with both standard and remote ports, or solely with remote ports. Remote IX ports that enter the IBX through a third party can be part of a primary and secondary pairing. A remote port can be the primary or secondary port. It can be paired with a standard IX port or with a remote IX port. The primary or secondary ports can also be part of a LAG.
