

What's New 'Cliff Notes'

Internet Exchange 2020.2

Equinix Internet Exchange 2020.2 delivers a new and improved web home page with updated information on peering, product features, location details, traffic statistics, and informational resources.

Internet Exchange 2020.2 is available as of October 19, 2020.

Landing Page

The main landing page provides an overview of locations, features, and relevant statistics with links on how to learn more about peering and the product. From this page, you can register or log into the portal.

Locations and Traffic

The global map in **Locations and Traffic** shows all metros where Equinix Internet Exchange is available. This page contains a list of metros listed by region, with hyperlinks to details of Equinix data centers, and peering database for specific Equinix exchanges. This page includes a traffic graph with maximum and average traffic on daily, weekly, and monthly basis.

Resources

The **Resources** menu provides links to knowledge articles, product videos, and frequently asked questions about the Equinix Internet Exchange.
