

What's New 'Cliff Notes'

Metro Connect 2021.3

Metro Connect 2021.3 is available in September, 2021.

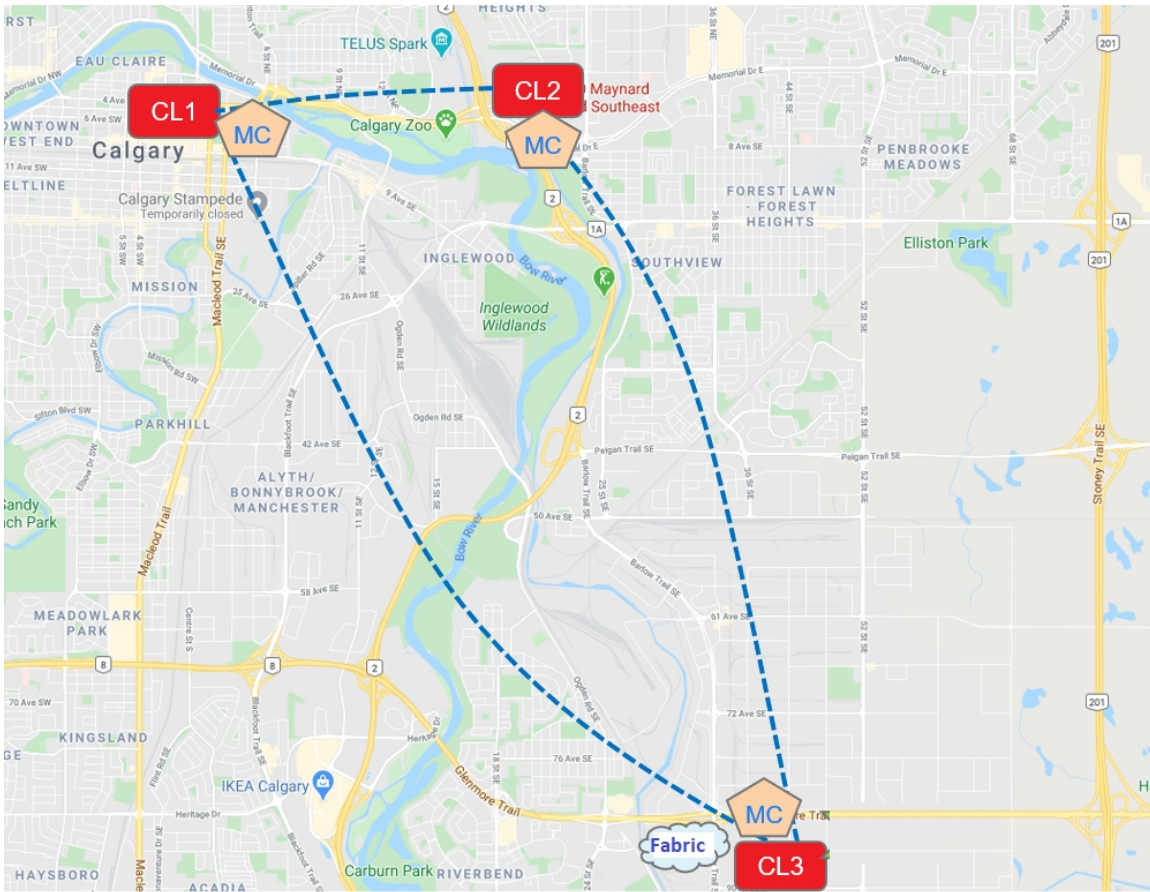

Dual-Diverse/Unprotected 10G and 100G Metro Connect Now Available in Canada

With this release, Metro Connect supports Canadian customers. Here are the technical specifications for Calgary and Toronto area Metro Connects. The Metro Connect services, provided over carrier fiber, are available in two port speeds:

Layer 1 Services Using Dense Wavelength Division Multiplexing Technology (DWDM)

Port Speed	Media Type	Transceiver Module	Encapsulation Type
10 Gpbs	Single Mode fiber (SMF)	10 Gpbs BASE-LR (1310 nm)	LAN-PHY
100 Gpbs	SMF	100 Gpbs BASELR4 (1310 nm)	LAN-PHY

This map shows the 10G and 100G Layer 1 product offering in Calgary.

This map shows the 10G and 100G Layer 1 product offering in Toronto.
